health and wellness

PICER™- Cognitum Engineering

reprogramming and re-educating the mindsets of the cells

We design and produce our own “codes” which emit an equal and opposite phase of these harmonics to counteract the destructive frequencies generated by our DNA structure. This modulation effect neutralises and reprograms the stored data so the reprogrammed DNA emits less and less of the radioactive frequencies, and the cell can naturally heal itself.

Mysty

Body Spray

Brings clarity of mind, enhances analytical abilities, improves work quality and efficiency. Promotes harmonious rapport with others, making it easier to resolve disagreements and conflicts.

Special features:

- Promotes good quality sleep
- Helps to reduce body odour
- Creates a refreshing atmosphere

Usage:

Spray around yourself and around the environment before meetings and gatherings. Spray daily in common areas such as the sitting room, bedroom, bathroom and areas where mildew may easily accumulate. Spray on pillow before sleeping to improve sleep quality.

Main ingredients: Encoded™ water

p i c e r™

G R D

(Genome Reprogramming Drink)

Through the fluids in the body, the GRD can effectively be infused into the cells of the various bodily organs and systems including the lymphatic system, the urinary system, the digestive system, as well as the liver, the spleen and the blood vessels. Promotes detoxification, clarity of mind and improves skin complexion. Helps digestion and nutrition absorption.

Special features:

- By assisting the functioning of the bodily systems, the resulting effect is beauty from the inside out.

Usage:

Put one drop of GRD into 100ml of drinking water. Drink 700ml – 800ml of GRD infused water per day.

Main ingredients: Encoded™ water

p i c e r™

Vivere

(cream for inflammation of the joints)

Specially formulated to treat gout, inflammation, swelling, and painful joints.

Special features:

- Helps to bring enlarged joints and bones back to their normal and healthy state.

Usage:

Apply every 4 hours on affected areas.

Main ingredients: Encoded™ water, Vitis Vinifera (Grape) Seed Oil, Simmondsia Chinensis (Jojoba) Seed Oil, Sodium Acrylate /sodium Acryloyldimethyl Taurate copolymer, sodium carbomer

Renovamin Serum

(for normal to oily skin)

The codes in this serum access the blood vessels to help maintain healthy blood circulation and function in the heart, arteries, lungs, and pancreas. Helps to prevent vascular disease and improve the condition of varicose veins.

Usage:

- For cardiovascular purposes: apply 1-2 times daily on inner arms, wrists and sides of the neck.
- For insect and mosquito bites: apply on affected areas
- For pimple and acne on skin: apply on affected areas

Special features:

- Helps reduce bleeding caused by wounds and speed up recovery.
- Lightens color of wounds and scars
- Soothes mosquito and insect bites

Beauty effects:

- Suitable for using as part of a skincare regime for people with oily skin. Helps to bring balance to oily skin. Reduces and prevents pimples and acne.

Main ingredients: Encoded™ water, hydroxypropyl starch phosphate.

Massage Cream

Directly accesses the muscles, nerves and fascia, helping to reduce muscle inflammation and joint pain.

Special features:

- Reduces the appearance of varicose veins
- Helps to relieve tight and sore muscles, ligaments and tendons

Usage:

To relieve general physical pain, apply 2-3 times daily on affected areas.

Main ingredients: Encoded™ water, Vitis Vinifera (Grape) Seed Oil, Simmondsia Chinensis (Jojoba) Seed Oil, Sodium Acrylate /sodium Acryloyldimethyl Taurate copolymer, sodium carbomer

Novatio Gel

The codes in this gel access the lymphatic system to reduce water retention and promote healthy functioning of the immune system. Relieves general physical pain and reduces tension in the nerves and ligaments. Promotes clarity of mind and concentration.

Special features:

- Helps to relieve emotional discomforts, promotes better interpersonal relationships. Enhances smoothness in work activities and promotes a more successful outcome.
- Helps to relieve general physical pain. Soothes and heals sunburns.

Usage:

Apply 2-3 times daily on affected areas.

Main ingredients: Encoded™ water, sodium carbomer

picer™

Upper Body Gel

The codes in this gel access the breasts, mammary glands and lymphatic system.

Special features:

- Promotes breast firmness by tightening loose and sagging skin.
- Helps to reduce issues associated with breast tumors, fibroids and hyperplasia.
- Reduces discomfort in breasts during menstruation.

Usage:

Apply 1-2 times daily on the chest, the breasts, under armpits, inner upper arms, and on the sides of the neck.

*Suitable for both male and female.

Main ingredients: Encoded™ water, sodium carbomer

p i c e r™

Female Cleanser

The codes in this cleanser directly access the vaginal cavity, the uterus, and associated lymph's in helping to prevent the reproduction of abnormal cells. Reduces vaginal discharge and inflammation of the uterus. Alleviates discomfort during menstruation. Minimizes issues associated with uterus and vaginal cancer.

Special features:

- Available in 3 different types.

Usage:

Mix 1 drop of the female cleanser into 100ml of distilled water into cleanser device. Insert cleanser into vaginal cavity and use 2-3 times daily, 100ml total per usage.

Type A: helps to alleviate emotions associated with fear, anxiety and insecurity.

Type M: addresses discomforts during menstruation associated with bloating, swelling and excessive blood flow.

Type N: suitable for those with a high risk of cervical cancer, and for those suffering from cervical cancer.

Main ingredients: Encoded™ water

Nova Femme

Promotes the relief of long term chronic menstrual discomforts such as abdominal and pelvic pain. Helps ease emotions related to irritability, restlessness and anxiety prior to menstruation. Helps bring about calmness of the mind and balance of emotions, creating a more relaxed and carefree mood. Contributes to improving the complexion and radiance of skin. May encourage slowing down the widening of hips and pelvis due to aging.

Usage:

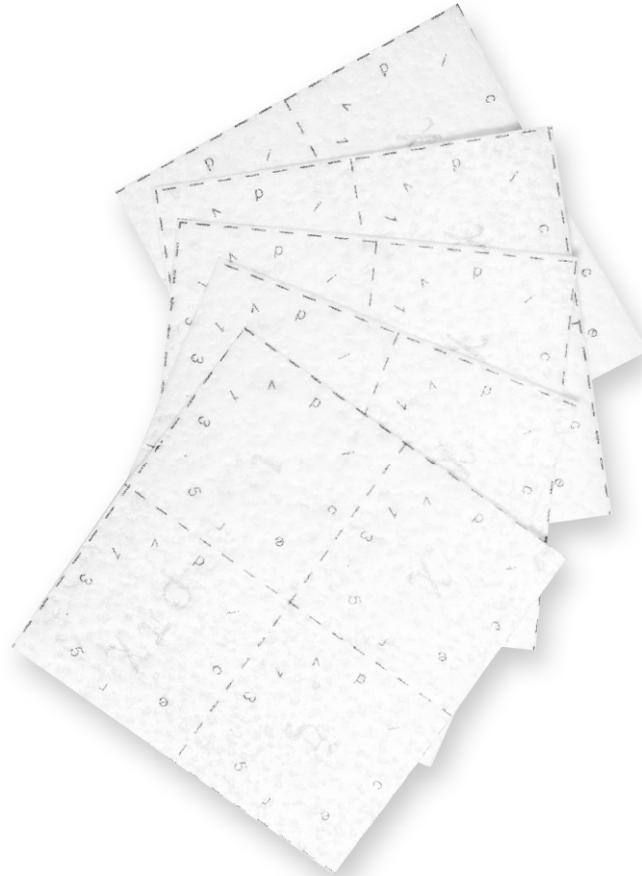

Gently rub all over the pelvis area, including front, back, sides, lower abdomen, and naval. Also rub on the sides and back of thighs and knees.

Apply 2-3 times daily.

During menstruation, can increase the frequency of usage if needed.

Main ingredients: Encoded™ water, sodium carbomer

p i c e r ™

G T I

(Genome Tracer Interface)

Enhances the proper functioning of the oesophagus, liver, heart, small intestines and kidneys. Aids digestion. Alleviates stomach discomforts and relieves nausea.

Special features:

- Minimizes digestive discomforts related to emotional issues, invoking more calmness and well-being.

Usage:

Ingest one piece after meal.

Place on tongue to help dissolve, chew and swallow.

Main ingredients: Encoded™ water, potato starch

Ora:prep Kit

Eating fish and meat (particularly fresh seafood) can affect the proper function of our bodily organs. The Ora:prep kit accesses the digestive system and organs through the salivary glands, arteries and blood vessels to help the organs maintain their proper function. The results can give a beautifying effect on our physical appearance, improving skin complexion, helping to reduce teeth grinding while sleeping, and assist in curbing the appetite.

The kit includes: Ora:rinse and Ora:gel

Usage:

Use before or after eating. First, rinse the mouth with 5ml of Ora:rinse, then apply Ora:gel on the teeth and gums and let absorb. Do not rinse mouth.

Main ingredient Ora-rinse: Encoded™ water, glycerin, xylitol, alcohol denat, menthol.

Main ingredient Ora-gel: Encoded™ water, hydroxypropyl cellulose.

Food Spray

Minimizes the adverse effects that food has on our organs; particularly from eating meat and fish.

Special features:

- Helps to reduce and curb appetite to assist in maintaining a more balanced weight.

Usage:

Prior to eating, spray evenly onto food.

Main ingredients: Encoded™ water

p i c e r™

Mouthwash

The coding in this mouthwash accesses the digestive system through the salivary and parotid glands.

Available in 3 types: Regular, Coronary and A-Type.

Usage:

Use before or after meals. Make sure the mouthwash reaches the whole mouth cavity, all of the teeth and salivary glands.

Regular: Can soothe acidic and dry mouth, reduce bad breath. Helps to relieve canker sores, cold sores and dry throat.

Coronary: Helps to reduce coronary related issues

A-Type: Helps to reduce the damaging signals emitted from the parotid gland that cause puffiness at the face. Helps to reduce anxiety and improve communication.

Main ingredients: Encoded™ water, glycerin, xylitol, ethanol, menthol

Ora:gene Toothpaste

By accessing the teeth Ora:gene is able to help reduce the pressure in the blood vessels and nerves that are connected to the brain. Also helps to reduce anxiety and aggression generated through the process of chewing while eating.

Special features:

- Promotes concentration and clarity of mind
- Helps to reduce anxiety and emotional unrest
- Relaxes and brings a sense of lightness to the face

Beauty features: Helps to reduce signs of aging and skin deterioration

Usage:

Use Ora:gene toothpaste night and day on teeth, gums and tongue.

Main ingredients: Encoded™ water, xylitol, glycerin, calcium carbonate, cellulose, menthol

Nasal Spray

Accesses the blood vessels in the nasal passage to reach the pituitary gland.

Available in 3 types: Regular, H-Type, S-Type

Regular: Helps to bring clarity of mind. Suitable for anyone

H-Type: Helps to relieve tension and emotions. Suitable for those with negative and extreme thinking patterns.

S-Type: Clears nasal passage and enables better breathing. Suitable for those experiencing allergy symptoms.

Usage:

Use every 3-6 hours. Spray once into each nostril.

Main ingredients: Encoded™ water, sodium chloride, grapefruit seed extract, menthol

Gel for Skin Rash

Specially made to ease rashes, eczema, itchy skin and other skin-related allergies. Helps to improve the function of the liver, kidney and bladder, the immune and lymphatic system, and improve blood circulation.

Usage:

Apply 2-3 times daily on affected areas. Suitable for children and adults.

Main ingredients: Encoded™ water, sodium carbomer

p i c e r™

Concentration Set

Enhances children's concentration & learning abilities in two simple steps

Novatio Gel

- Reduces stress and relaxes the body
- Promotes clarity of mind and concentration
- Reduces tensions in the nerves, muscles and ligaments

Suggested Usage:

- Apply 2 to 3 times daily
- Use a small coin amount and apply on scalp, hair and eye brows

Main ingredients: Encoded™ water, sodium carbomer

Mysty Spray

- Brings clarity of mind and enhances analytical skills
- Increases efficiency in work and helps to promote patience

Suggested Usage:

- Spray around head, body and environment before work assignments and studies

Main ingredients: Encoded™ water

Pet Novatio Gel

For routine wellness and general health care maintenance.

Helps to moisturize and soothe sensitive skin, rashes, irritation and inflammation. Moisturises the skin.

Special features:

- Helps to remove toxins from the body, strengthen the immune system, and improve intestinal and bone function.

Usage:

Use twice daily. Apply on skin, fur and abdomen. Can apply as often as needed, especially on areas of discomfort

Main ingredients: Encoded™ water, sodium carbomer

picer™

Pet Mysty Spray

When used regularly, can help to reduce the effects of the environment on your pet. Helps to settle emotional disturbances and promote a calm and relaxing mood.

Special features:

- Enhances communication between pet and owner, building a better bond and a smoother relationship between the two.

Usage:

Use twice a day, or as often as needed. Spray around your pet, or for better results, spray directly on pet.

Main ingredients: Encoded™ water
